Product Description

Product Description:

Stainless steel welded pipes are essential components that are widely used in many industrial applications. Made of premium quality stainless steel, our welded stainless steel pipes feature superior corrosion resistance and excellent strength. These pipes are available in various sizes and thicknesses, and can be customized to meet specific requirements. They have a smooth finish, and can be polished for extra protection against corrosion. The ends of these pipes can be plain, beveled, threaded, or customized as per the customers' needs. We provide an extensive range of welded stainless steel round pipes that offer enhanced durability, superior performance, and an unbeatable price point. Our pipes are ideal for industrial and commercial applications, and can be used in a variety of industries and sectors. With our welded stainless pipes for sale, you are sure to find the perfect solution for any application.

Features:

Product Name: Stainless Steel Welded Pipe
MOQ: 2 Ton

Our Product Introduction

no

Wall Thickness: Customized
Length: Customized
Material: Stainless Steel
Surface Treatment: Polished
Keywords: stainless steel welded steel pipe, welded stainless steel round pipe, stainless steel welded pipe

Applications:

Tai-steel welded stainless steel round pipe are made of the highest quality stainless steel material and are the perfect choice for any application that requires superior strength and superior corrosion resistance. Our range of stainless steel pipes is available in different shapes, sizes, wall thicknesses and finishes, allowing you to customize your project to meet your individual needs. They are also certified to ISO9001 standards and can be delivered in as few as 15 working days. The welded stainless steel round pipe is ideal for fluid pipe, structure pipe, heat exchanger, boiler pipe, chemical engineering, petrochemical, automotive, marine, food and beverage processing, and other industrial applications. Jans-steel stainless steel pipes are available in 304, 304L, 316, and 430 grades, and can be customised to meet your exact requirements. Wall thicknesses can range from 0.5 mm to 25.4 mm, and lengths can be customised to meet your exact requirements. Our welded stainless steel round pipes are manufactured in accordance with international standards such as ASTM, AISI, DIN, EN, GB, JIS, and are available at competitive prices. Our minimum order quantity is 5-T, and our prices start from 2900\$. All orders are shipped and delivered in a safe and secure manner. If you're looking for reliable stainless steel pipe distributors, Tai-steel is here to provide you with top-notch products and services. We offer a wide range of welded stainless steel round pipe options for your projects, and our experienced stainless steel pipe welding technicians can help you find exactly what you need.
